

## Ask Fast Agreement On Defense Strategy

### Top Military Leaders Head For Paris

Washington, Nov. 26—(AP)—America's top military planners took off for Paris tonight aiming at swift final agreement on the western world's strategic plan for defense against Russia.

Secretary of Defense Johnson and Gen. Omar Bradley, chairman of the joint chiefs of staff, will present the plan to the 12-nation Atlantic treaty military committee. Bradley is chairman of the committee.

Accompanied by staff aides, Bradley and Johnson boarded a special air transport at Philadelphia immediately after watching the Army-Navy football game. Johnson also is due to visit Germany while on the continent.

Informed officials said that the military plan due to be adopted covers at least five types of defense tasks to be undertaken by one or more of the 12 member nations.

The primary task of the United States will be to maintain and develop its a-bomb air force for instant emergency use wherever needed.

Agreement on a grand strategy will clear the way for full delivery of a billion dollars worth of arms from the United States to western Europe pending some technical agreements. It is expected that the first arms shipments will cross the Atlantic by or soon after the first of the year.

The military committee is scheduled to meet in Paris Tuesday and go over the draft of the strategic plan which it has developed. The defense committee will then meet for the same purpose on Thursday.

Both Johnson and Bradley are counting on quick action because of the spade work out of the way.

In the meantime, it was learned, President Truman this week released the first few million dollars of arms program funds to be spent in readying equipment for quick shipment to Europe.

Neither the strategic plan nor the defense treaty itself provide the answers to some of the related high political-military issues which are now being secretly debated in defense and foreign ministries in many of the western capitals. The two hottest issues concern Germany and Spain.

Many diplomats and military men alike are convinced that eventually the western powers will have to decide (1) whether an effective military system can be completed in western Europe without Spain and (2) whether western Europe, including western Germany, can be defended without the Germans themselves contributing armed forces.

The strategic plan as described here as an outline according to which the detailed defenses of each sector will be worked out.

The plan conceivably may be changed in the Paris meetings but American officials do not expect any substantial alteration from the proposed draft worked out through the military committee and its three-nation "standing group" composed of British, French and American generals.

It was learned today that the plan closely follows an outline of strategic tasks for the Atlantic treaty nations which Bradley described to congress last session.

## Government Moves To Settle Coal Strike

Washington, Nov. 26—(AP)—Government trouble shooters were reported moving fast today in an effort to revive contact talks between John L. Lewis and the soft coal operators before the present strike truce runs out next Wednesday.

Lewis was known to be in close touch with presidential assistant John R. Steelman and conciliation director Cyrus S. Ching. Ching and Lewis were reported to have conferred at Winchester, Va., yesterday, but whether any soft coal operators were present was uncertain.

George H. Love, president of the Pittsburgh Consolidation Coal Co., largest commercial coal producer in the world, was said to have attended the highly secret conference, but neither he nor his top aide, Frank Amos, would confirm that.

Lewis, meantime, did confirm that his 200-man United Mine Workers policy committee would meet at the Roosevelt hotel in New York Monday (2 p.m., CST).

The big committee decides major policy between UMW conventions. It was the policy committee which announced the three week truce on Nov. 11 in Chicago. That armistice expired at midnight Wednesday.

President Truman told his last news conferences that he would invoke the emergency strike provisions of the Taft-Hartley act, if it was warranted, should the coal strike resume.

Ching would not talk to even his closest associates about the reported conference with Lewis. It was understood, however, that he was trying to fathom Lewis' negotiating strategy, and find out exactly what the mine chief wants in a new contract.

During the couple's lifetime they gave approximately \$4,000,000 to De Pauw University, Greencastle, Ind. Their gifts resulted in construction of the buildings and establishment of the rector scholarship foundation. There are no immediate survivors.

Chicago, Nov. 26—(AP)—The death of a man who said he'd rather be dead than retired was ruled a suicide today by a coroner's jury.

The body of James Freeburg, 72, a steelworker, was found in the Calumet river yesterday. He disappeared from his home after Thanksgiving dinner.

A son-in-law, Sam Battaglia, 40, told the coroner's jury that Freeburg "wanted to work for the rest of his life" and had threatened to drown himself when his children suggested that he retire.

## Chinese Communists Seize Ward's Aide

### Chinese Radio Gives Account Of Ward Trial

San Francisco, Nov. 26—(AP)—The Chinese Communist radio today gave its first account of the "hearing" given United States consul-general Angus Ward at Mukden, Manchuria.

This is the full account by the Communist News Agency as broadcast by the Peiping radio and heard by the Associated Press:

"Verdict on the case of A. Ward and four foreign employees of the former U. S. consulate in Mukden, who brutally assaulted Chinese worker Chi Yu-Heng, was passed by the Mukden Peoples Court on Nov. 21.

"A. Ward, who led the assault, was sentenced to six months imprisonment, while sentences of four months were passed on his accomplices, A. Kristan and R. Rehberg, and sentences of three months on F. Cigna and Shiro Tatsumi.

"Their sentences were reprieved for one year and all the convicted were to be deported. A. Ward, was required to pay worker Chi Yu-Cheng 174 U. S. dollars as wages and severance pay in addition to medical fees and compensation.

"The Peoples Court of Mukden held five hearings on the case. At the last court hearing, more than 30 representatives from peoples organizations in Mukden and William N. Stokes and many Chinese workers from the former U. S. consulate were present.

"The overwhelming evidence brought forward against the accused included a photograph showing a wound in worker Chi Yu-Cheng's forehead and a report of a medical examination made by the Mukden Municipal hospital. Worker Chi Yu-Cheng and many eyewitnesses of the brutal assault on the worker also testified at the court."

### Geographers Conclude Meeting, Elect Officers

Cleveland, Nov. 26—(AP)—The National Council of Geography Teachers concluding a two-day convention, today elected Prof. Loyd Durand, Jr., of the University of Tennessee, Knoxville as president.

He succeeds Dr. Earl B. Shaw of State Teachers College, Worcester, Mass. Durand is head of the University of Tennessee's geography department.

The council also elected these other new officers:

Prof. Harry O. Lathrop of Illinois State Normal University, first vice president to succeed Durand; Miss Mary Viola Phillips of New Kensington, Pa., high school, Mrs. Kathryn T. Whittemore of State Teachers College, Buffalo, and John W. Morris of the University of Oklahoma.

John H. Garland of the University of Illinois was re-elected treasurer. New executive board members are Miss Mary Viola Phillips of New Kensington, Pa., high school, Mrs. Kathryn T. Whittemore of State Teachers College, Buffalo, and John W. Morris of the University of Oklahoma.

Chicago, Nov. 26—(AP)—James C. Morelli paid with his life early today for a "mad dog" killing orgy nearly two years ago in which three victims were slain and two others were shot and left for dead.

The skinny 22 year old killer was executed in the Cook county jail electric chair a few minutes after midnight. Among the 154 witnesses—a record high for the county jail—was George Kuesis, brother of the first slaying victim.

Morelli had been granted five years of execution by the courts and Gov. Adlai E. Stevenson. His wife, Genevieve, 18, mother of his 22 months old daughter, Dorothy, worked fruitlessly almost to the hour of execution to win him a sixth.

Two young men were seized Thursday trying to smuggle a gun and two hacksaw blades to Morelli. To the end, Morelli protested he was innocent.

State prosecutors said Morelli, Thomas Daley, 42, and Lowell Pentress, 21, set out the night of Dec. 12, 1947, to "get" John Jueis, a garage owner who they suspected had informed on them in a \$730 robbery.

Daley shot and killed Kuesis. Four other men at the garage who witnessed the killing were taken on a gangland style ride, so there would be no witnesses. Two of them—Emil Schmeichel and Theodore Callis—were killed and the others were shot, and dumped from the car when they feigned death.

Daley was shot and killed by police who captured the trio. Pentress was sentenced to two 199 year prison terms.

Prosecutors likened the trio to "mad dogs" in the cold blooded manner of their killings.

### Animal Society Elects President

Chicago, Nov. 26—(AP)—P. S. Shearer of Iowa State College, Ames, today was elected president of the American Society of Animal Production. He succeeds Dr. W. C. Kamig, talk about defense secrets.

Mr. Truman yesterday ordered Attorney General McGrath to tighten the safeguarding of atomic and other security information. The president's action is understood to have been directed mainly at John A. McClellan, who is active in England, the secret processes relating to the manufacture of the so-called super bomb.

Johnson repeated today, however, bomb.

### Veep May Soon Be Calling Bride 'Madam President'

Washington, Nov. 26—(AP)—Vice President Barkley soon may be calling his attractive bride "Madame President."

Under time honored tradition, the new Mrs. Barkley can become president—not vice president—of "The Senate Ladies," if she wants the position and title.

This is an exclusive group made of wives of United States senators who devote part of a day each week when congress in session to Red Cross or other charitable work.

The top office always is offered to the wife of the vice president or the other top-ranking senate officer, but is not always accepted.

"We certainly hope Mrs. Barkley will take it," one senator's wife active in the group said. "She is charming and it would give all of us a chance to really know her."

"We usually meet on Tuesday and work until 3 o'clock that afternoon rolling bandages, knitting or doing some similar work," she said. "We each bring a sandwich or box lunch for ourselves and eat that together."

### 20-Year-Old Youth Held For Indecent Attack On Baby

New York, Nov. 26—(AP)—A tall, husky youth was taken into custody today in connection with an indecent attack on a 14-month-old girl in her Staten Island home early Thursday morning.

Chief of Detectives William T. Whalen identified the youth as George Kane, 20, of Staten Island. No charge was placed against him immediately.

"I can't explain why I did it," he quoted the youth as telling police in an oral statement.

The child, dazed and bleeding from internal injuries and body bruises, was found lying unclothed in her bed by her parents last Thursday morning.

She was taken to a hospital where doctors said she had been "criminally assaulted." They could not determine whether she actually had been raped.

Chief of Detectives William T. Whalen said the youth had been used by the label on an empty beer bottle found in the cellar of a home near that of the attacked child. The bottle, though a code number on the label, was found to be part of a case shipped to the youth's father.

Whalen quoted the youth as saying he walked to the child's home after drinking the bottle of beer. There he said he slipped in through a back door, entered the child's room and mutilated her, Whalen said.

Despite the screams of the child, the parents did not awaken until the attacker was fleeing the house.

Today the State department announced that Communist police had seized the 26-year-old Stokes, removed him without a warrant to a "court" for a hearing on "spying charges." More than six hours after he was taken away he had not returned to the consulate.

There was no indication whether Stokes was hailed off as a witness, defendant or for some other reason. But the department made this assertion:

"Any allegations that members of the consulate general staff in Mukden engaged in espionage are ridiculous and absolutely false."

Washington, Nov. 26—(AP)—Sen. Edwin C. Johnson (D-Colo.) charged today that David E. Lilienthal is with the presidential directive. And the ringleader in a "nefarious plot" to give Great Britain the secret of an American super atomic bomb.

Johnson asserted that working with Lilienthal, retiring chairman of the Atomic Energy Commission, are "certain politicians, scientists and publications in this country."

All of them, Johnson said, are "actively engaged in a conspiracy."

The senator also linked the Washington Post to "this unwise scheme." He made his charges in a letter to the Post replying to a Post editorial critical of him. Johnson made the letter public.

Lilienthal could not be reached for comment.

The Post article concerned a Johnson television broadcast in which he discussed super atom bombs. The newspaper had said that Johnson was the first person officially placed in the atomic energy program to say what he did.

In a statement tonight, the newspaper said the Johnson letter failed to require revision of its earlier article. Johnson contended he spilled no secrets.

Orders Atomic Safeguard Johnson's accusation came after a high government official had said privately that the senator's discussions of atomic weapons on a television program were a big factor behind President Truman's crackdown on talk about defense secrets.

Mr. Truman yesterday ordered Attorney General McGrath to tighten the safeguarding of atomic and other security information. The president's action is understood to have been directed mainly at John A. McClellan, who is active in England, the secret processes relating to the manufacture of the so-called super bomb.

Johnson repeated today, however, bomb.

### Vice Consul W. N. Stokes Arrested

Washington, Nov. 26—(AP)—Chinese Communists have suddenly seized another American diplomat at Mukden—Angus Ward's top aide. A Republican congressman immediately proposed that the United States Navy blockade the China coast until he is released.

The Communists' arrest of Vice Consul William N. Stokes in connection with "spying charges" was made known today by the state department. It ordered "the strongest protest" to the Red commanders in the Manchurian city.

That was not enough for Rep. Judd (R-Minn.), a member of the House Foreign Affairs committee. He suggested the blockade.

"We should have begun a Naval blockade a year ago when they first started this line of action," said Judd, a former medical missionary in China. "Failing this, we should have mobilized the forces of world opinion—something we didn't try until a few days ago."

Petition 30 Nations The State department last week asked 30 nations to bring pressure on the Chinese Reds before they freed Angus Ward. Mukden consul general. What effect this appeal had was not clear.

Rep. Mansfield (D-Mont.), who also is a member of the foreign affairs unit, suggested that the State department immediately lay the case before the United Nations and ask prompt action to get Stokes freed.

Stokes was the chief lieutenant of Ward, who was released only this week after a month's imprisonment by the Communists on charges which the State department declared were entirely trumped up.

The new seizure came with stunning unexpectedness at a time when American officials believed the worst was over in the Ward case. They had assumed it would be only a matter of days before Ward and his staff would be allowed to leave Mukden.

Rep. Judd told a reporter he was not demanding direct military action against the Chinese Communists. But he said:

"There are types of action that can be taken short of war and we had better take these steps if we want to keep the respect of the Asiatic people."

News of the latest incident came from Ward himself. Less than a week ago he and four of his aides were in prison, cut off from all contact with the outside world. Then the Reds announced they had been convicted in the beating of a Chinese and released with orders to leave the country. While they were held, efforts to break the Red barriers and reports on what was happening came from Stokes.

Today the State department announced that Communist police had seized the 26-year-old Stokes, removed him without a warrant to a "court" for a hearing on "spying charges." More than six hours after he was taken away he had not returned to the consulate.

There was no indication whether Stokes was hailed off as a witness, defendant or for some other reason. But the department made this assertion:

### Colombia's Presidential Campaign Ends In Rioting

Bogota, Colombia, Nov. 26—(AP)—Colombia's bloody presidential campaign closed tonight with strikes and shootings and a funeral holding explosive possibilities.

Vincente Echandia, brother of the embittered erstwhile liberal candidate, Dario Echandia, died last night of wounds received from military police guns while walking near the monument to Jose de San Martin, Colombia's liberator.

The funeral is tomorrow, election day, when the conservatives will be electing conservative Laureano Gomez, the only candidate. The liberals were expected to try to make a martyr's spectacle of the rites in defiance of government orders forbidding private or public meetings.

Voters among the 10,000,000 population will go to the polls with the nation under a state of siege amounting to martial law. The state of siege was decreed by the conservative government Nov. 9.

The liberals have proclaimed a boycott of the election, withdrawn their candidate, and started a nation-wide folded arms strike until Monday. More than 500 persons have been reported killed in waves of violence in recent months.

Liberals say it will be the first election under such circumstances in 130 years of Colombian independence.

Killed in the shooting that proved fatal to Vincente Echandia were two other liberals. Wounded were one of the candidate's bodyguards and a policeman. Liberals said only the intervention of an army lieutenant saved the life of Dario Echandia.

The liberal leader said the shooting was an "ambush."

Conservative President Mariano Ospina Perez issued a statement, which said the "government policy" called on all to observe measures for public order. He said competent authorities had been ordered to make a thorough investigation of the shooting.

## FAR EAST DIPLOMATIC STIRRING MAY SEE BIRTH OF U. S. POLICY

In January, American diplomatic chiefs in the various Far Eastern nations will meet with Ambassador-at-Large Philip C. Jessup in Bangkok, Thailand, to discuss the general trend of events in the Orient.

This conference will be the second step in what apparently is to be a slow, painful search for the elements of an entirely new Pacific policy for the United States. The first step was the appointment of a special Far East study group under Jessup whose work had been so singularly effective in ending the Berlin blockade. Another encouraging sign is that the foreign ministers of several Far Eastern countries will gather soon in Ceylon to consider their common problems. The Western powers will not be represented at this meeting, but they will be watching with keen interest for any evidence of real collaboration among the conferring nations.

The collapse of Chiang Kai-shek in China and our loss of faith in him wiped out the last vestiges of a meaningful American policy toward the Far East. Since that time there has been no pretense that we have had a policy in that area.

What these new moves indicate is that we are beginning to grope toward some sort of program to fill that void. Our foreign affairs experts plainly are not thinking about the future in terms of China alone. The scope of the Bangkok conference is broad, in frank recognition that the difficulties are also broad. Biggest among them of course is the sprawling menace of communism. Often it has been proposed that the United States develop an "Atlantic Pact" type of treaty with the nations of the Far East. But just as frequently it has been pointed out that the basis for such a pact does not exist there. The lands of the Pacific are not yet accustomed to dealing with each other in effective co-operation. There is no tradition of common action and thought.

In contrast, many European nations for all their differences have managed to get together in programs to meet their common needs. The machinery for joint action is fairly well developed.

It is the lack of this tradition and this machinery that handicaps the Far East in coping with the Communist threat and in turn hampers the United States in formulating a sound overall policy in the Pacific.

This country obviously cannot impose a united course of action upon Far Eastern nations. It would probably be impossible in any event. But it is particularly so in an area where several countries have only recently found full national self-expression. That is why we and other Western powers will observe so carefully any signs that the nations themselves are working toward a joint treatment of their common problems. We know that the initiative in collaboration must come from the Far East. Still the forthcoming Bangkok conference of U. S. diplomats is evidence that this country realizes it must have a policy of its own in the Orient with or without the active assistance of others. For we have no assurance that even a Far East united against communism would want the United States, Britain and the rest of the West as real partners.

## Earl Meyer Home On S. Clay Avenue Damaged By Fire

Fire of undetermined origin badly damaged the kitchen of the residence of Earl Meyer, 842 South Clay avenue at 9:40 o'clock Saturday morning.

The fire was discovered by Mrs. Meyer, who was seated in the living room when she noticed smoke pouring through the house. Mrs. Meyer went to the residence of Len Magill next door and summoned the fire department.

The fire fighters laid a line of hose to the building, but the larger line was not needed the flames being extinguished with the large booster hose.

The firemen, however, were forced to don gas masks to enter the kitchen as the smoke was heavy, not only in the kitchen but throughout the dwelling.

After a battle of more than thirty minutes the firemen extinguished the blaze, confining the damage to the kitchen.

The floor around the gas stove, together with some of the lathing and plastering, was badly damaged. There was also considerable smoke damage.

## Recipes For Game, Fowl Available At State Library

Springfield—Hunters who have met with success during the current hunting season but are now wondering what to do with the varmints now that they've shot them can get a wide variety of recipes for preparing game and fowl from books in the public libraries. Secretary of State Edward J. Barrett, state librarian, pointed out.

If their local libraries do not have books of this type, the Illinois State Library does, he said, and will lend them to the local libraries for their use.

In the State Library's collection are such books as "Cooking Wild Game" by Frank G. Ashbrook and Edna M. Sater; "Fowl and Game Cookery" by James Beard; "The Outdoorsman's Cook Book" by A. H. Carhart, which contains Leo Carillo's recipe for quail and rice; "Fish and Game Cookery" by Roy Wall; "Men in Aprons" by L. A. Keating, which contains a chapter called "With rod, gun and skillet—hungry hunter grub"; "The Best Men are Cooks," by Frank Shea and "Come and Get It" by G. W. Martin, containing a section called "Hunters' specials."

## Rover And The Cover Girls

New York—Everybody loves dogs—except cover girls. Too many dogs are setting their faces on the front pages of magazines, thus cutting cover girls out of money.

In the Foyer of a modeling school here is a billboard plastered with canine photos. It's a stern warning to the girls that if they don't keep their rates low and set to appointments on time—well, what happens to a dog. Rover will get the job.

The school, the pioneer in the field, is run by Grace Downs who has trained or found positions for some 25,000 models.

Grace, a smiling, cheerful woman in the blonde forties, was among the first professional cover girls.

"Some people are nice enough to say I was the very first," she said. "I started back in 1921, when most of the magazine covers were painted by famous artists."

"When I began," Grace recalled, "there were only a few ready-to-wear firms. Most women made their own clothes or brought them from dressmakers. When I was a young girl only people with a lot of money had coathangers. The rest used hooks."

"At first they used us only to model hats. Then they got more daring and put us in clothes."

She got \$10 for one of her first cover jobs—for a millinery magazine. Today clothing models make from \$40 to \$75 a week, and they can stay years longer in this specialty than the glamor lasses who pose only for magazine covers.

The last developments is one to give the traveling salesmen gray hair—the models are becoming traveling saleswomen.

"I'm nothing but a clotheshorse," one girl complained to a manufacturer. "While I'm wearing your line, I might as well sell it."

He gave her the chance, and she proved she could do it. Now instead of accompanying traveling salesmen and merely serving as wooden mannequins, many girls go out alone. They both model and sell the garments.

"I don't know whether that's really good," laughed Miss Downs. "It's doing away with the salesmen. And, of course, they won't pay the model as much as they do a man—even though she's doing a double job. That's the penalty of being feminine."

## THE DOCTOR SAYS:

## Early Treatment Of Club Foot Recommended

By EDWIN P. JORDAN, M. D.  
Written for NEA Service

When a child is born with a twisted foot, the condition is called "club foot." There are several ideas as to the cause of this condition, but actually no one knows all the answers. One theory is that the club foot is the result of pressure and abnormal position of the foot inside the womb of the mother. Another is that it is caused by a failure to develop, probably before birth, possibly because of something inherited directly from the parents.

All parts of the foot are affected in a club foot. The deformed foot is usually smaller than the normal foot. The heel is especially likely to be smaller and underdeveloped. Frequently, the foot is so twisted that all of the weight is carried either on the ball of the foot or even on what would normally be the top of the foot. The tendons and bones of the foot are consequently out of line.

Condition Gets Worse  
If a club foot remains untreated the condition tends to become worse, largely because of the increased pressure from abnormal weight bearing. In the simpler varieties of club foot, however, the foot can usually be restored to normal or near normal by proper treatment. To get the best results, treatment should be begun early and continued for a long time, as there is danger of return or recurrence. The earlier treatment is begun, the better the chances of obtaining good results.

If the condition is severe and has not been almost completely cured, the youngster will become more and more conscious of the difficulty with increasing years. Under such circumstances, parents, brothers and sisters, and friends need to use tact and understanding so that the child does not become too much disturbed about his or her problem.

Note: Dr. Jordan is unable to answer individual questions from readers. However, each day he will answer one of the most frequently asked questions in his column.

## THE DOCTOR ANSWERS

By Edwin P. Jordan, M. D.

Question: If a child two years old has tuberculosis in the glands of his neck will he outgrow it.

Answer: Tuberculosis of the glands of the neck used to be much more common than it is now. If the diagnosis is made early and proper treatment started, the majority succeed in overcoming this condition.

## Boy Bull Fighter Tries An Elk

Grand Junction, Colo. — Claude Robinson, 19, chased a tennis ball and wound up wrestling a bull and an elk. The elk, long antlers tossing, charged the youth when he climbed into its enclosure at the Lincoln Park Zoo in quest of the stray ball.

Robinson grabbed the elk's horns near its head and hung on trying to dodge the sharp points. The elk battered him against the fence and had him pinned there, practically exhausted, when zoo attendants rescued him.

## Pictures Add Beauty to Home; Should Be Chosen Carefully.

Selecting proper pictures and suitable frames for your home is just as important and essential as choosing your furniture. For no room is complete without pictures.

An outstanding picture often decides the color scheme and sets the mood of a room or a series of rooms. With the wide variety of pictures in stores every homemaker will be able to find appropriate ones for any room, thus enhancing the beauty of her entire home.

Much time and care should be devoted to buying framed pictures as the most cherished possession.

As you begin to browse in art centers, stores, and museums, you will find that there are prints on every subject, reproduced in all sizes. How are you going to make your choice from this staggering variety? To assist you here are a few guide posts to bear in mind when making your final selection.

**Own Taste**  
When you buy a new dress, your personal preferences greatly influence your purchases. The pictures on your walls are as personal as the clothes you wear, and your taste should be satisfied, so that you will be happy. And above all, feel that you can live with your pictures, appreciating them more and more with the passage of time.

It is important that your favored pictures fit into the color scheme of your room and create the mood you desire. The dominant tones in the room should be repeated in the pictures, and the accessories. Lamps,

draperies, and other decorative pieces should reflect the tones in the prints.

At the same time your pictures must fit into the furniture groupings. Pictures are an integrated part of the room setting, and it is important that they look as though they belonged there. When making your selection, it is wise to have a mental picture of the furniture arrangement and the available wall space. With this in mind, choosing pictures of the proper size becomes simplified.

**Small Prints**  
For instance, if you have a desk arrangement in a corner of a room, a grouping of small prints would be attractive and would fit the limited wall space. The subjects of the prints should be related to one another, giving the feeling of unity to the arrangement.

What pictures will look like on your walls is dependent to a great extent on the choice of frames. The frame endows the picture with permanence, increases its importance, and gives it a sense of completion.

With the growing popularity of dark wall finishes, there is a definite trend toward light frames. The contrast makes the picture stand out. Another way to center interest on your picture is to use a wide mat, repeating one of the colors in the picture. In this case only a simple narrow frame is necessary.

Your frames, too, must blend with your furnishings. If your furnishings are provincial, your picture frames should be simple and wide, made of wood in the style of the furniture.

Frames to fit traditional rooms demand more elaborate and darker woods in keeping with this period.

**Bamboo**  
For modern rooms there is a variety of sleek, light wooden and metal frames. If your choice is chinoiserie prints, select bamboo frames, and they will be equally attractive in a contemporary or period room.

Shopping and finding the right pictures takes time. But your efforts will be rewarded when you see how skillful picture treatments increase the beauty of your home. Remember there are suitable pictures for all decorating needs.

Diced cooked yellow turnips are delicious when mashed with butter or margarine, seasoned with salt and pepper, and mixed with grated American cheese.

Potato water should be saved to use in sauces and gravies, since it contains valuable nutrients.

Stewed apricots make a good cake filling when they are mashed, sweetened and thickened with cornstarch.

## New Sleep Silhouette Is Ultra-Feminine; Lace Ruffles Froth On Holiday Nighties

Figure flattery and richer color give added appeal to these luxury nightgowns. Empire styled gown (left) is new because of its coral color, sheer, hand-smocked midriff, the French crinkled silk crepe. A drop-shouldered, lace-floated neckline gives the blue nightgown of nylon sheer (center) its evening-dress look. Eru lace bands and shapes the bodice of the leaf green crepe-back satin nightgown (right) to which billowing sleeves and a slim skirt add their flattery.

**BY EPSIE KINARD**  
NEA Fashion Editor

New York—(NEA)—Alluring color and figure flattery have been added to the froth of silk and lace which gives luxury nightgowns their holiday appeal.

Many styles could pass in a pinch for evening gowns. Graceful, long-skirted flares from Empire-styled bodices, sleeves bell out. Necklines drop low in the same way that naughty dance frocks do.

Added to these silhouette attractions is fine detail: ruffles, net or lace insertion, shirring, pleating, embroidery, smocking.

A wide, waist-belted "belt" of hand-smocking shapes the silhouette of an Empire-styled nightgown of pure silk coral crepe. This Yo-

lande design which also parades its subtle charms in Nile green proves the nightgown is stepping out to have to offer.

A nightie styled like a dewey-eyed, deb's first party dress has a full skirt, a fitted waistband of lace, a leaf green gown of crepe-back satin proves that bands and scrolls, a drop-shouldered Batteau neckline flounced by lace. This froth of color as well as the familiar flesh line flounced by lace. The lace-silk and lace also boasts the solid encrusted bodice, billowing sleeves, and thin slices of frizzled lam for a breakfast treat.

## Weekly Ironing Chore May Be Made Easier

**BY MARJORIE SCILKEN**  
NEA Staff Writer

Most housewives cry that bending over the hot iron is sheer drudgery, but ironing experts insist that it's the wasted motions and old-fashioned methods that make it so.

Ironing the family wash can be one of the easiest household tasks to master, experts insist, if the housewife needs easy-to-follow rules.

They advise a woman to set her stage for ironing in the brightly lighted corner of a room. No rule says it must be either in the kitchen or basement. Her "stage" can take a radio to break the monotony of work, a thick rubber mat or rug for comfort, underfoot, an outlet for the iron which allows plenty of play for the cord.

An adjustable ironing board that can be raised or lowered for no-stoop ironing for either sitting or standing, will make the job easier. Other "accessories" should include a clothesbasket set on a low table or stool on the left side (eliminates need for stooping for dampened clothes); a table or drying rack—hung with hangers—for finished items, placed near the right hand. Also needed are a small bowl of water and a sponge for dampening; a Turkish towel; brown wrapping paper to spread under the ironing board to keep long pieces from sweeping the floor.

Ironing know-how comes with practice, but a few tricks can make the job easier even for the novice. Sleeve boards are combersome but a rolled Turkish towel, pinned to hold, doubles as a sleeve board, changes its size to fit baby's dress sleeves or Mom's wider dolman.

The Turkish towel is a handy prop in other ways: The buttoned front of a dress or blouse can be turned

## NEW HAIR STYLES HIDES MODERN HEARING AIDS

Shining, short hair, smart earrings and no worries about telltale wires and batteries—these are the morale-lifting possibilities for the woman who wears a hearing aid.

New, cropped hair styles may have presented problems to women who wear hearing aids. But there's a solution in the form of an up-to-the-minute hair style from New York's John Fonda, who designs a clever camouflage.

It's trick is to cut hair to a length of two and a half inches, front, sides and back. The back is dressed pseudo-page boy style, with sides first swept back and then combed softly forward. The front may be parted and dressed smoothly or cut and fluffed into a bang.

Though this is a brand-new short cut, a woman's best friend would never know that it conceals a hearing aid of the earring type. The aid is a smart button earring, one of a pair to which is attached a thin flesh-colored wire. This connects with a small battery, three inches long, which is tucked into a woman's bra.

## Helps For Homemakers

For a hearty luncheon or supper dish add slices of frankfurters to a cup of dried split peas; use either the yellow or the green peas for the soup.

Some of the strained and chopped baby foods, such as prunes and peaches are delicious folded into a gelatin salad for the whole family.

Do not shell fresh lima beans until you are ready to use them, since they lose vitamin C (ascorbic acid) if they are shelled long in advance. Keep the lima bean pods in the refrigerator until you are ready to cook them.

For a flavor change, bake fish fillets in a creole sauce and serve with potato puff and buttered spinach.

One of the most delicious of the cheeses coming from Switzerland these days is Emmentaler; grate and use it in a cheese soufflé, or serve it with fresh fruit for dessert. It is delicious, too, in sandwiches.

### Great Books Group To Study 'Ethics' Of Aristotle

Is there such a thing as happiness? Is that the chief objective of human beings? The Great Books discussion group will tackle these and other questions suggested by Aristotle's "Ethics" at its meeting on Monday, Nov. 28.

Both groups will meet at the public library on the same evening. The second year group, which spent four evenings studying Plato and Aristotle last year, will turn its attention to the search for the definition of truth. The dialogue between Meno and Socrates as narrated by Plato, which is the subject for the evening, will probably provoke questions as to the role of the teacher in installing a sense of virtue.

Both groups extend an invitation to others to join even if they have been unable to share in the earlier discussions. The entrance to the library on Sandy street will be open at 6:50. Sets of readings for both groups are available in the east reading room at the Public Library.

### What It Means: Spying For America

Washington — America's old-time spies seem picturesque in retrospect. They had none of the large-scale organization and efficiency of our modern espionage system, the Central Intelligence Agency. They worked only in wartime; that helped give them glamor.

Spying was largely a one-man or one-woman operation. The national favorite is young Nathan Hale, the Connecticut school teacher and Yaleman who became a captain in George Washington's army. He crossed into the British lines in the disguise of a Dutch school teacher to obtain military information. He was captured and hanged the next day.

"I only regret that I have but one life to lose for my country," the patriot is reported to have said before the noose tightened. Perhaps the young scholar was recalling a line from Joseph Addison's play "Cato"—"What pity is it that we can die but once to save our country."

Another brave but less well-known spy for Gen. Washington was Col. Barton. He and a few soldiers disguised as non-combatants penetrated the British lines and captured Brigadier Prescott. They brought back to Washington, who held him as a prisoner for some time.

Then there was Pvt. Charles Morgan, who spied on Cornwallis' army as an agent of Gen. Lafayette.

Two women became famous as spies on opposite sides in the Civil War, the Union's Emma Edmonds and the Confederacy's Belle Boyd, who saved Stonewall Jackson's army by giving him timely information.

Allen Pinkerton and his famous detectives ran an extensive spy system for the Union army. Pinkerton and his men became famous when they foiled a plot to assassinate President Lincoln in 1861. Pinkerton after the war maintained a private detective agency. But out of his wartime organization grew the U. S. Secret Service.

Thomas Beach, an Englishman who fought on the Union side in the Civil War, spied for the British in this country in the 1860s and 1870s. His job was to keep Britain informed of activities of Irish agitators on this side of the Atlantic, who at one time tried to invade Canada. With the alias of Maj. Henri le Caron, Beach joined Irish-American societies, earned the confidence of fellow members and then betrayed their plans to his employers. Beach's type of work leaves a bad taste in the mouth of historians who admire most wartime spies. The Secret Service earned quite a reputation as spy hunters during the

### Spanish-American War, breaking up one notable Spanish spy ring in this country. The organization also had charge of anti-sabotage and anti-espionage work in the first World War. But since then it has had little to do with such activities. The Secret Service is normally charged with guarding the president and enforcing certain laws concerning the U. S. Treasury, like catching counterfeiters.

The Federal Bureau of Investigation had charge of counter-espionage and anti-sabotage work in the last war. It also extended its counter-espionage and intelligence work to Latin America for the duration of the war. The espionage work in the last war was done by the earned forces and the Office of Strategic Services (OSS). Many hair-raising tales came out of post-war publications of OSS.

Spying is as old as history. You read about it in the Bible. The English are said to have created their intelligence system about 1330. Edward III established it so he could learn about continental intrigues. He was interested in promoting his little kingdom's foreign trade, and he found he needed to know what was being planned and plotted in the courts of Europe.

America about 600 years later has reluctantly set up a peacetime intelligence agency, partly for a similar reason — for guidance in playing successfully its new role as a leader in world affairs.

Under regulations of the federal communications commission a single owner can possess no more than five television stations.

## CHICAGO LIVESTOCK MARKET REPORT

Chicago, Nov. 26.—(AP)—Holding nominally steady today, hogs, cattle and sheep ended a week of advancing prices. Hogs were quoted in a range of \$15.50 to \$16.50.

Barrows and gilts gained 75 cents to \$1 while sows advanced \$1. Eastern order buyers were active in the market all week. Average prices held above the government guide, which next week will go down 40 cents to \$14.75. It will remain there all December.

A good demand also developed for cattle, supported by rising wholesale prices for dressed beef. Steers and yearlings gained 50 cents to \$1 while heifers were steady to 50 cents higher. One load of show rejects sold at \$43.50, another new all-time high.

Good and choice 80 to 98 pound lambs ended the week 25 to mostly 50 cents higher. The market was very active all week.

## New York Stock Market

New York, Nov. 26.—(AP)—The stock market leveled off today after Friday's slide.

For a while it appeared likely that an advance was shaping up but there was no follow-through to demand. Fractional gains, though, were in the majority.

Business started off at a smart rate, then slowed to a walk after overnight orders had been taken care of. Turnover totaled around 400,000 shares for the two-hour session.

Stories of a secret conference aimed at ending the long argument between coal miners and operators attracted considerable interest but traders had little tangible to go on. Magnavox was again a soft spot following Friday's 1-point loss. The stocks dropped another point or so. Stockholders are scheduled to vote on a new financial program for the company on Dec. 12.

Higher prices were paid for Bethlehem Steel, Chrysler, Packard, Goodyear, Douglas Aircraft, Kenecott copper, Dow Chemical, Union Carbide, Phillips Morris, Westinghouse electric, Union Pacific, Chesapeake & Ohio, Standard Oil (NJ), and U. S. Gypsum.

Lower were Woolworth, United Aircraft, Schenley, Admiral Corp., Homestake Mining, Baltimore & Ohio, Gulf Oil, and Johns-Manville.

Corporate bonds moved narrowly.

## A Salaam To The Slalom

By HAL BOYLE

New York.—(AP)—This is the season

when the American outdoor sports

world gives it salami to the slalom.

So what's new in skiing?

"They are playing around now

with glass skis," said Fred Picard,

who operates the sky shot at the

Besides selling fancy equipment to

movie stars at Sun Valley, Picard

acts as ski consultant to a number

of department stores, designs wall

paper for ski lodges, and has set

up a mail order business for skiers.

He outfitted the U. S. Women's

olympic ski team last year.

Many people try skiing once, take

a bad tumble, and give it up.

"That is why you should rent

equipment, rather than buy it, un-

til you are sure you like the sport,"

said Picard. "We figure, however,

every person who becomes an enthu-

siastic skier converts three more."

Broken arms, collar bones and

thighs dampen the fondness of many

newcomers. Picard, who has skied

for 37 years with no damage except

an occasional bruise, feels the danger

of the sport has been overrated.

"Accidents happen because of two

things," he said. "The beginner

either skis too long—it is always

easier to hurt yourself when you are

tired—or else he tries feats beyond

his skill. The amateur, for example,

should never think of jumping. That

is only for professionals or ski in-

structors."

**GRAIN PRICES IN CHICAGO HIGHER**

By WILLIAM FERRIS

Chicago, Nov. 26.—(AP)—Firmness

in cash prices, more export business

and news that margin requirements

will be reduced Monday spurred buy-

ing in grain futures on the Board

of Trade today. In active dealings,

the market went to new highs on

he current advance.

The market got off to a firm

start, suffered a slight decline

around mid-way in the session from

profit-taking, and then came back

to push ahead of the previous tops.

Export houses bought corn. Mills

took a little wheat. Other cereals

followed the leaders upward.

New seasonal highs were made by

December and March wheat, March

and May corn and December and

May oats. News that a lake steamer

carrying 193,000 (b) bushels of Cana-

dian wheat and 90,000 (b) bushels

of Canadian rye was on its way

here had little influence on the mar-

ket.

Receipts were: wheat 7 cars, corn

56, oats 10, and soybeans 10. Wheat

closed 2-11 higher, December \$2.161-

8, corn was 2-11 higher, December

\$1.291-4, oats were 2-11 higher, De-

cember 761-2, rye was 2-34 higher,

December \$1.361-1.371, soybeans were

1-11 higher, December \$2.311-2.32

and lard was 3 to 5 cents a hun-

dred pounds higher, Dec. \$10.37.

## Naval Museum Plans Delayed

Washington.—(AP)—The nation will have to wait a while for its naval museum.

Mrs. Truxtun Beale, who owns Decatur House, one-time residence of Commodore Stephen Decatur, last year leased the coach house to the Naval Historical Foundation for 50 years at \$1 a year. It was to be remodeled and opened early next year as a museum.

But when work got under way it was discovered that the coach house was slightly less safe than the White House. It needed steel columns and beams. The steel strike stalled that, however, and how no one knows when the museum will open.

## Bill "Bojangles" Robinson, Tap-Dancing Idol Of Show Business, Dies At 71

New York, Nov. 26.—(P)—Bojangles and his friends arranged a benefit danced his way upstairs again last night... for the last time.

Death came to America's greatest tap dancer—the smiling negro with the twinkling feet—while he slept under an oxygen tent with a failing heart.

Once before, when asleep, Bill Robinson had dreamed his famous upstairs-tap routine—and woke to make a fortune with it.

"I was being made a lord by the King of England," he explained, "and he was standing at the head of a flight of stairs. Rather than walk, I danced up to get it."

Robinson, 71, had been a public entertainer from the age of eight. He carried his nickname, "Bojangles," for almost 40 years. It meant happy-go-lucky.

**Began As Stable Boy**  
He began as a little stable boy dancing for pennies in Washington Peer Halls, reached the top of his world on Broadway and in Hollywood, and made anywhere from \$2,000 to \$4,000 a week.

But he was almost broke when he went to the hospital two weeks ago.

Robinson never really retired. He kept dancing until his eyes failed him three months ago and he could no longer see the steps of the old routine. He kept in top-notch training until the end. To celebrate his 60th birthday, he danced 60 blocks down Broadway.

With him when he died was his second wife, Elaine. Also present were his sister, Mrs. Dorothy Smalls, and Marty Forkins, his manager since the early 19's.

**Never Kept Money**  
Although he made up to \$2,000 a week in show business and \$6,000 a week in the movies, cash never stayed with him very long. He gave lavishly to charity—both in money and benefit performances—and he liked to gamble. He was also a crackerjack pool player.

Probably his most famous movie appearance was in "The Little Colonel" in 1933 with Shirley Temple—who called him "Uncle Bill" from then on.

Services will be at noon today, with burial in the actor's section of the Evergreen Cemetery in Brooklyn.

## Strawn's Crossing Club Entertains Several Guests

Several guests were entertained by the Strawn's Crossing Woman's club at its meeting held at the country home of Mrs. J. E. Rawlings.

The guests attending included Mrs. Gertrude Reynolds, Mrs. Adelaide Johnson, Mrs. Austin Cockerill, Mrs. Charles "Tippy" McHernan, J. Brown and son and Mrs. Roy Lewis and daughter.

The meeting was presided over by the vice president, Mrs. Albert Standish. Mrs. W. C. Thompson led the pledge to the flag and Mrs. Robert Hopper gave the club prayer.

Mrs. J. E. Rawlings and Mrs. Dwight Hopper were appointed to pack and send the Christmas gifts which club members have donated for Park Ridge School for Girls. Those who have not yet brought their gifts are urged to do so as soon as possible.

"The Story of the First Thanksgiving" was read by Mrs. Eva Murray, who also presented a group of Thanksgiving poems. Mrs. E. O. Cully read an article entitled "Spiritual Life in the Home." Piano solo duets were played by Mrs. J. E. Rawlings and Mrs. Roy Lewis.

Following the program, a luncheon course was served by the hostess.

The next meeting will be held Dec. 6 at the home of Mrs. Roy Robinson.

Cause of his illness was not revealed. Dr. Manning, known as the "Fighting Bishop," retired three years ago in his 25th year as head of the New York Diocese.

Harold Greenwalt and Mr. and Mrs. Charles McKean.

Barry Hudson and Mr. and Mrs. Otto Hudson and their daughter from Indianapolis, Ind., are visiting Mr. and Mrs. H. O. Hudson.

## Postmen Report Mention Of "Dog Bite" Law Works

Springfield, Ill., Nov. 26.—(P)—Illinois postmen with nippy dogs on their routes are getting a break under a new state law.

The "dog bite" law, written onto the books in August, already has won pocketbook balm for about 35 Chicago letter carriers assaulted by canines.

Ed F. Benning, president of the Illinois State Association of Letter Carriers, said today it also has calmed nerves jittered by hounds with a mean look in the eye.

The dog bite law makes an owner liable when his pet attacks a postman who is "peacefully" going about his business. It covers milkmen and meter readers, too.

Benning said he knew of no case where a bite victim has gone to court under the new statute.

The Chicagoans got their relief simply by having the association or postal officials send a copy of the law to the custodian of the offending pet. A courteous note informed the recipient of his responsibilities.

In some instances, owners were in South Dakota. Light snow fell throughout the New England states, unless dogs were restrained.

Benning said settlements for doctor bills and ruined pants were forthcoming promptly.

Some unbitten but worried postmen have obtained nerve-soothing results merely by informing their patrons about the law.

"It works," Benning said in an interview. "The people restrain the vicious dog or give him to somebody out in the country."

## Weather Pattern Continues Varied

By the Associated Press

The nation's weather pattern today followed that of the last several days. There was snow, rain and sleet and cold over the midwest and the northeastern part of the country.

Fair weather, with mild temperatures, prevailed over most of the western half of the country.

Only one area, south central lower Michigan, was hit by sub-zero weather. The mercury dropped to four below at Lansing; 2 at Jackson and -1 at Battle Creek. Detroit's low was 12 above. The cool air touched into parts of Mississippi and Alabama. Birmingham reported an early morning low of 28 and temperatures were near freezing at Greenwood, Miss.

Snow and sleet and rain were reported over Minnesota and rain fell in South Dakota. Light snow fell throughout the New England states, where skies generally were clear except for cloudiness in Washington and Montana.

# Fired-Up LSU Eleven Batters Tulane 21-0

## Heavy Snows Plague Eastern Half Of Nation

New Orleans, Nov. 26 — (AP) — Louisiana State university's Tigers fought with fire in their veins to crack Tulane's running attack and win a frenzied football game over their arch rivals 21-0 today.

L. S. U.'s victory possibly sent Tulane's confident hopes of a Sugar Bowl bid spinning into space.

The victory gave the bayou Bengals wins over the champions of three conferences—Tulane of the Southeastern; Rice of the Southwest and the University of North Carolina of the Southern conference.

About 20,000 fans were kept screaming on their feet as LSU completely outplayed the favored Tulane Green Wave.

Coach Gaynell Tinsley's super-charged team was also vastly superior on defense. A dull-eyed Tulane eleven couldn't find running space.

LSU's back Billy Baggett made the third and final score from the Tulane one with one minute to play. He skirted left end after his untiring team mates slashed aside a weary Tulane squad in a strong 45-yard march.

The Louisiana State offensive power was unleashed in the first three minutes of play. Quarterback Ken Konz, 185-pound junior from Weimar, Texas, flashed 92 yards after catching a punt.

It was the first time LSU had its hands on the ball. Konz streaked through a wide spread and confused Tulane defense, sashaying from the left to the right side of the field.

In the third period sophomore Lee Hedges, LSU back, darted off left tackle and galloped 65 yards for LSU's second touchdown.

Carroll Griffith kicked all three extra points.

## Communist Troops Press Towards Chungking

Chungking, China, Nov. 26 — (AP) — Communist troops pressed towards this Chinese nationalist capital today in an arc only 50 miles to the east.

At the same time they were moving rapidly to isolate the city on the south and southwest.

Spearheads of two red forces totalling 95,000 men were officially acknowledged to be 50 miles away in the vicinity of Manchuan. The front was on a 45-mile-long curve from that area northward to Fowling.

The defense ministry also acknowledged that the Reds striking northwest from captured Kweiyang were within 50 miles of the highway town of Fichien. Once they take that town, they will have cut the road that leads 400 miles from Chungking southwest to Kunming. This would be a blow to nationalist escape hopes.

A 35,000-man red force also was acknowledged to be moving north from Kweiyang at unspecified places within 95 miles due south of Chungking.

## Chickens Turn In Fire Alarm

Reading, Pa., Nov. 26 — (AP) — A weird contraption that provides chickens with water helped save a barn from destruction by fire.

Ludwig Jorszewk of nearby Fleetwood explains it simply as this: his chickens are smart.

Jorszewk had connected a pipe that ran from his home to the barn and chicken house. The hens and roosters, if thirsty, would peck at the end of the pipe. The pecking would cause a bell to ring in Jorszewk's home. He would turn on the water.

But yesterday the chickens kept pecking away even though Jorszewk thought he had let loose enough water to flood the barn. He investigated, discovered the blaze that had started in his automobile. He had the fire under control before firemen arrived.

## Death Wins Close Race With Santa

Wilmington, Del., Nov. 26 — (AP) — The premature Christmas party planned for seven-year-old Eugene Metts in Memorial hospital was cancelled today.

Death beat Santa Claus to the youngster's heart.

A tree was being decorated, presents were being wrapped when little Eugene—barely conscious but anxiously awaiting the party—succumbed to leukemia, a blood disease.

The youngster was taken to the hospital Tuesday night. The party was planned for 4 p.m. today after a radio station broadcast Eugene's last wish—for a Christmas party.

Death, however, came to Eugene at 10 a.m.

## 600 REBELS ESCAPE IN MANILA JUNGLE

Manila, Sunday, Nov. 27 — (AP) — Approximately 600 rebels who stood off the Philippine constabulary and Army and Air Force units, apparently escaped today into the jungles south of Manila.

Manila newspapers said the constabulary reported its patrols had probed the slopes of Mount Tinian, near Batangas, after two days of bombing and shelling. They found no rebels. Batangas is 60 miles south of Manila.

Constabulary headquarters in Manila were silent on the escape reports.

## ALABAMA HITS FLORIDA

Gainesville, Fla., Nov. 26 — (AP) — Classy blocking sprang Alabama runners loose for four long runs that gave the Crimson tide a 35-13 football victory over Florida today.

Jim Melton scored two touchdowns and carried the brunt of Alabama's running offensive, but it was a hard-hitting line that sprang the trap on Florida and opened it for Edema sprinters.

## 'Little One-Sided' Truman Calls Army Navy Football Tilt

Philadelphia, Nov. 26 — (AP) — President Truman, the World War I field artillery officer, watched the Army overrun the Navy 38 to 0 today in their annual football classic.

"I got cold as the dickens," the President admitted as he boarded his train for the return trip to Washington.

He said his electric foot warmer was not working this year and he used only an army blanket around his feet.

The game at Municipal Stadium was played in 34-degree weather with icy blasts sweeping the 102,000 spectators.

The President said he enjoyed the game.

Then, he added: "But it was a little one-sided."

Mrs. Truman made no comment, but hurried into her private car.

The President was wrapped in a "Minnesota storm coat" with fur collar presented him on his recent trip to Minneapolis and St. Paul. Mrs. Truman huddled under a black Persian lamb fur coat.

## Cornell, Army Place 2 Gridders On All-East Team

New York, Nov. 26 — (AP) — Successful Army and Cornell each played two men on the 1949 All-Eastern College football team, announced today by the Associated Press.

Army furnished the team its gifted T-quarterback, Arnold Galiffa, and one of the flankers of a line averaging well over 200 pounds, end Dan Foldberg.

Cornell, the Ivy league power, rated with Hilary Choleat, hard-running halfback who is also a bulwark on defense, and Richard Clark, 220-pound tackle from Canastota, N. Y.

Completing the backfield that was chosen for balance were George Selja, Princeton's fine halfback—who caught 22 passes and scored ten touchdowns — and Bob Zastrow, Navy's young 290-pound passing ace.

Tom Rowe of Dartmouth teamed up with Foldberg at end while Holland Donan of Princeton, giant 200-year-old junior, paired with Clark at the tackle spot.

The mid-section of the forward wall is manned by guards John Schweder of Penn and Bernie Barokouskie of Pitt, flanking Bob Numbers, Lehigh center.

## Elliott Asks Court To Dismiss Law Test Case

Springfield, Ill., Nov. 26 — (AP) — Attorney General Ivan A. Elliott today asked the Sangamon county circuit court to dismiss a complaint challenging validity of the new Illinois county assessment supervisor law.

The motion denied claims of three statewide organizations of county and township officials that the law provides for an illegal invasion by the state of county and township rights.

There was no indication when the court will rule on Elliott's motion.

The assessment supervisors law, passed by the 1949 legislature, is due to become effective Dec. 1 but the court test is likely to delay its operation.

## Suit Would Bar Keeshin Name On Hayes Lines

Chicago, Nov. 26 — (AP) — Court action was taken yesterday to keep John L. Keeshin from using his name in connection with the Hayes Freight Lines of Mattoon, Ill.

Trustees of the Bankrupt Keeshin Freight Lines Inc., once headed by Keeshin, filed a petition in federal court seeking an injunction barring Keeshin from adding his name to the Hayes Firm.

Keeshin and David H. Ratner hold a controlling interest in the Hayes Line.

The petition claims that a Hayes Truck driver had referred to his employers as "the Keeshin-Hayes Freight Lines." It contends that the Hayes Lines filed a request Nov. 9 with the Illinois secretary of State to change the firm's name to Keeshin-Hayes freight lines.

Such action, trustees claim, constitutes an attempt to "cut down the good will of the original Keeshin Lines." They say it is an attempt to "defeat reorganization proceedings now approaching their end."

## PRINCIPIA WINS THIRD TILT

Elmhurst, Ill., Nov. 26 — (AP) — Principia College defeated Harris Teachers, 40 to 29, tonight in the final game of a weekend basketball tournament here.

## Fordham Rolls Over New York University 34-6

New York, Nov. 26 — (AP) — With quarterback Dick Doheny directing the assault, the Fordham Rams slammed over three touchdowns in the first period today, then rolled to a 34-6 victory over New York University.

The Polo Grounds crowd of 17,114 chilled spectators had to wait only three minutes before Doheny passed 14 yards to Al Pfeiffer, and the Ram left end scooted an additional 40 yards for a touchdown.

Two more touchdowns — another one an aerial from Doheny to Pfeiffer — did the business, as the traditional "Battle of the Bronx" proved a runaway for Fordham.

The two Illinoisians among recipients were Walter Dill Scott, president emeritus of Northwestern University, and Arch W. Shaw of Chicago, marketing consultant.

## FILE THIRD DAMAGE SUIT IN HOTEL FIRE

Fond Du Lac, Wis., Nov. 26 — (AP) — A third damage suit was filed in court here today in the Grand View hotel fire at Ripon, Wis., Feb. 1 in which six persons died.

Charles N. Showers, Iowa City, Iowa, administrator of the estate of Robert Wingler, one of the victims, asked for \$16,000, charging negligence in the operation of the hotel by Mrs. Mayme Kuhn.

The two other suits have been started by the widows of two Madison, Wis., men who perished in the fire.

## Sheriff Believes Burglary Ring Broken At Carmi

Carmi, Ill., Nov. 26 — (AP) — Sheriff Kenneth Cole expressed belief an Illinois-Indiana burglary ring has been broken up with the arrest of three Carmi men and recovery of loot valued at about \$20,000.

The sheriff said the loot—which included jewelry, guns, liquor, radios and tires—apparently was taken in store and home burglaries in the two states in recent months.

Held on burglary and larceny charges were Lindell Curtis, 25, Dale Groves, 23, and Earl New, 29.

Authorities from nearby counties were invited here to view the items recovered.

## General Clay Resigns From Ecusta Position

Asheville, N. C., Nov. 26 — (AP) — Gen. Lucius D. Clay has resigned as president of the Ecusta Paper Corporation mere weeks after taking over the post.

Clay announced his resignation yesterday, effective as soon as a successor can be named. He said he had no immediate plans and declined to specify his reasons for resigning.

Asked by reporters if it was because of an announced tie-up between his company and a munitions-making firm, Clay said that he would not deny it.

Olin Industries, Inc., of Alton, Ill., manufacturer of munitions, firearms and other products, disclosed yesterday that it was going into the cellophane making business at the Ecusta plant near Brevard, N.C.

There was some speculation here that the transaction between Ecusta and Olin industries precipitated, at least in part, Clay's resignation.

During the war Clay was connected with army procurement of munitions.

Clay, who retired from the army some months ago after serving as commander of U. S. forces in Germany, took over the Ecusta presidency Oct. 1.

There was no immediate clarification yesterday on the transaction between Olin industries and Ecusta, other than that Olin had acquired existing facilities of Ecusta "necessary" to get into the cellophane industry.

S. I. Crew's Commodore Lea, injured last spring in the Preknack, will come back to the races this winter at Hialeah.

## Little Rock Team Represents East In 'Rose' Bowl

Pasadena, Calif., Nov. 26 — (AP) — Little Rock, Ark., Junior College early tonight was selected to represent the east in the Little Rose Bowl football game Dec. 10.

The announcement was made by officials of the Pasadena Junior Chamber of Commerce, originator and sponsor of this annual clash between an outstanding out of state Junior College and a California school.

The game usually attracts 50,000 or more fans to Pasadena's famed Bowl.

The western representative, probably nearby Santa Ana or East Los Angeles Junior College, will be selected early next week. Santa Ana has one tie on its record while East Los Angeles has an unblemished record in nine games.

Chamber spokesmen said that Little Rock had not formally accepted the bid but was expected to later tonight.

## Attempt Comebacks In NCAA Distance Grind At Michigan

East Lansing, Mich., Nov. 26 — (AP) — Cross-country comebacks will be attempted by two dethroned champions in the NCAA distance grind here Monday.

Bob Black of Rhode Island state, was the individual winner in the NCAA and IC4A meets last year. But last week Black finished 34th in the IC4A meet at New York.

Black set the pace in the first three miles but then was slowed down by a cramp. Individual winner was Dick Shea of Army who did the five-mile distance in 25:14.7.

Both Shea and Black will be on hand to fight it out Monday. Other outstanding distance stars expected include Don Gehrmann of Wisconsin, Brown Ross of Villanova, Bob Karnes of Kansas and Warren Druetzel of Michigan State.

Host team Michigan State will try to redeem itself in the team championships. The Spartans took NCAA, IC4A, and NAAU titles last year, but in this year's IC4A, Michigan State finished third behind Army and Manhattan College.

Besides Army and Manhattan, the nine teams placing behind MSC last year will be back again. In order of their finish last year they are second place Wisconsin, Syracuse, EPNN State, Notre Dame, Purdue, Kansas, Indiana, Miami of Ohio and Cornell.

## Texas Christian Tamps SMU 21-13

Fort Worth, Tex., Nov. 26 — (AP) — Little Lindy Berry, the Rock of Texas Christian, said his valdictory to college football today by passing and running his team to a 21-13 victory over Southern Methodist.

Berry scored one touchdown and passed for two more as the Horned Frogs licked the Methodists for the first time in seven years.

The Christian quarterback threw 27 passes and completed 17 for 250 yards. He also netted 31 yards carrying the ball. The game's top runner was Kyle Rolle of Southern Methodist, who rolled up 102 yards in 13 carries.

All-American Doak Walker of SMU sat out most of the last half as the result of a leg injury. It was after his departure from the game that the Horned Frogs swept to the victory that gave Texas Christian a tie for third place with Texas in the southwest conference standings.

## BABY WANDERS FROM HOME. QUIT SEARCH

Sacramento, Calif., Nov. 26 — (AP) — Little Thomas David Dunnigan, 22-months-old, wandered away from his farm home yesterday afternoon and a concentrated search was abandoned today.

The still was not a single clue as to his fate.

Under Sheriff Harry Knoll called off the land hunt for the blue-eyed boy shortly after noon. He expressed the opinion the child had fallen into a cold and murky stream and that further probing of its bottom would be futile.

## WILLIAM AND MARY'S SCUTTLES NORTH CAROLINA

Williamsburg, Va., Nov. 26 — (AP) — Joseph (Buddy) Lex, William and Mary's all-Southern conference tailback, threw three touchdown passes and end Vito Ragazzo's favorite receiver—snared two of them today as the big, green-shirted Indians routed North Carolina State's wolf-pack, 33-7.

A crowd of 8,000 witnessed the Southern conference struggle.

## Army Humbles Navy In Unprecedented Rout

Philadelphia, Nov. 26 — (AP) — A great Army team rose to the height of its awesome power this frigid Saturday to crush Navy, 38 to 0, in the most one-sided beating ever administered in the 50 games played between the service rivals.

A shivering crowd of 102,443, including President Truman, packed in Municipal Stadium, saw the rugged black knights drive to a touchdown from the initial kickoff and then, under the brilliant direction of Arnold Gilfilla, rip and tear the Middies into abject submission.

Only once before in the history of the classic did a team take a mauling to compare with that absorbed by the Middies today. That was in 1903, in the infancy of the series, when another Army eleven smashed Navy by 40 to 6.

So completely outclassed were the boys from Annapolis that they penetrated Army territory only once, late in the third quarter, and then they were halted 47 yards short of a score by the fierce-tackling cadets.

A complete rout

It was in every respect a complete rout for the Middies, just as it was a sublime triumph for the huskies from West Point as they completed their 20th straight game without having tasted defeat. Army scored in every period, and toward the end their reserves were battling the tars around with Happ Abandon.

The names which will be remembered longest, probably, are those of Gilfilla, the team's great field general from Donora, Pa., and Gil Stephenson, a darting, wicked-running fullback from Columbus, Ga., between them, wrecked a Navy team which went into the contest thinking it had a chance to win.

Stephenson Gets Thru

Stephenson, who was crippled a year ago and played only briefly in Navy's "upset" 21-21 tie, gained a full measure of satisfaction as he sifted through the Middies for three touchdowns today. It was he, more than any other Army runner, who knocked the breath out of the Tars in Army's 67-yard march to its first touchdown when the game was only minutes old.

Gilfilla, finishing his football span at the point, was complete field general. Not only did he pass destructively, but he also carried the mail.

When the befuddled Middies fell back to guard against his whistling passes, Gilfilla ran with terrible efficiency. He, Stephenson, Jim Cain and Frank Fischl of the main army battery simply turned the Navy defense inside out.

## Spaniard With Bad Temper Kills Sweetheart, Family

Zaragoza, Spain, Nov. 26 — (AP) — Everyone knew Salvador Sanchez had a fierce, quick temper.

He was quarreling with his sweetheart's father over the dowry he thought he should receive. When the father refused to agree to his terms, Sanchez shot and killed his sweetheart and her father, mother, aunt and one brother. He seriously wounded two other brothers and himself.

Sanchez was taken to a hospital under heavy police guard.

## Attempt Comebacks In NCAA Distance Grind At Michigan

East Lansing, Mich., Nov. 26 — (AP) — Cross-country comebacks will be attempted by two dethroned champions in the NCAA distance grind here Monday.

Bob Black of Rhode Island state, was the individual winner in the NCAA and IC4A meets last year. But last week Black finished 34th in the IC4A meet at New York.

Black set the pace in the first three miles but then was slowed down by a cramp. Individual winner was Dick Shea of Army who did the five-mile distance in 25:14.7.

Both Shea and Black will be on hand to fight it out Monday. Other outstanding distance stars expected include Don Gehrmann of Wisconsin, Brown Ross of Villanova, Bob Karnes of Kansas and Warren Druetzel of Michigan State.

Host team Michigan State will try to redeem itself in the team championships. The Spartans took NCAA, IC4A, and NAAU titles last year, but in this year's IC4A, Michigan State finished third behind Army and Manhattan College.

Besides Army and Manhattan, the nine teams placing behind MSC last year will be back again. In order of their finish last year they are second place Wisconsin, Syracuse, EPNN State, Notre Dame, Purdue, Kansas, Indiana, Miami of Ohio and Cornell.

## Southern Illinois Swamps Indiana In Benefit Grid Bout

Carbondale, Ill., Nov. 26 — (AP) — Southern Illinois University swamped Indiana State College 41 to 14 today in a post-season benefit game for the Shriner's children's fund.

Southern built up a 20-0 lead with 10 minutes to go in the first half before the Indiana school scored. The final touchdown for the visitors came in the final period.

J. B. Cooley led the Southern attack with two touchdowns—one a few minutes after the game started on a 21-yard run and the other in the second period when he returned a punt 81 yards.

Other Southern touchdowns were scored by Don Riggs, Bob Colborn, Harold Call and Bob Dallas.

Jim Lovin, Southern Illinois captain and all-conference lineman for three years, scored his first point in four years with the team when he kicked an extra point in the fourth period.

## Rice Bumps Baylor 21-7, Gets Bid To Cotton Bowl

Houston, Tex., Nov. 26 — (AP) — Rice Owls used a powerful ground attack and a break today to defeat Baylor 21 to 7 and take the Southwest conference championship and become host to North Carolina in the Cotton Bowl.

A standing room crowd of 31,000 saw the Owls stop the effectiveness of the strong Baylor passing attack, overcome a touchdown deficit and move to their first undisputed title since 1937.

Immediately after the game, Dan Rogers, head of the Cotton Bowl, announced in Fort Worth that North Carolina had accepted an invitation to meet the southwest champions January 2 in Dallas.

Baylor had entered today's tilt a game behind the Owls and needed a victory to clinch a tie in final standings and the automatic bid as the Cotton Bowl classic host.

The victory gave Rice its first undefeated conference campaign record in history. An early season 7 to 14 loss to Louisiana State is the only blemish on the Owls' regular season record. North Carolina has lost to Louisiana State, Tennessee and Notre Dame.

Rice all but tossed its good passing game aside while coming back strong on the ground for two second period touchdowns that overcame a 7-0 lead taken by Baylor the first time it received the ball.

A blocked punt set up Rice's final score in the third period.

## Routt Is Only Quintet Opening On Own Floor, Others Return Friday

By Bob Merris

Jacksonville basketball teams weigh anchor and "shove off" once again on a game-filled winter card of frenzied cage activity Tuesday night when all four local quintets open their '49-50 hardwood schedules.

Of the quartet of ball clubs only one will put in a local appearance, however. All the rest are sailing high wide and handsome, going to such distant points as Kentucky, Virginia — the town that is — and Waverly.

But the boys come home on the weekend and those fans who miss the boat Tuesday night will have a chance to see three traveling quintets at home while the other local club leaves port.

We'll belay the nautical slang long enough to give the eager fans a sneak preview of what's going to happen in the Jacksonville basketball this week.

First of all, Routt high school will entertain Franklin's winless Flash five on the Our Saviour's planks Tuesday night in the home kick-off encounter for all schools. I.S.D. moves to Waverly the same night while Jacksonville high is at Virginia and the Illinois College Blueboys are getting their schedule in-destination at Murray State College in Kentucky.

The locals will retire to either lick their wounds or dance victory jigs until the following Friday night when two of our teams brace for home engagements. The I.S.D. athletes play host to the Perry Pioneers in a PMBC tangle on the west end boards and John Chapman, new JHS coach, makes his first appearance before home folks when his Crimsons meet up with Felshans of Springfield in a Central conference bout.

Saturday night will wind up the inaugural week of hardwood antics. Illinois College is at home in the west end entertaining McKendree at I.S.D. Paul Stroud will take his Rockets to Springfield where they'll meet Cathedral.

## Eight Yankee Grid Stars Sign For Blue-Gray Tilt

Montgomery, Ala., Nov. 26 — (AP) — Eight more northern football stars signed up for the annual blue-gray game today, bringing the Yankee roster to 15.

Blue-gray headquarters said Ray Eliot of Illinois, who heads the northern coaching staff for the Dec. 31 game, promised to have the remaining nine players next week. Southern coaches have announced 22 of the 24 men they will have on their squad.

Accepting bids today were ends Joe Zurazless of Northwestern and Bob McKenzie of Iowa, tackles Don Winsow of Iowa and Lyle Button of Illinois, guard Chuck Gottfried of Illinois, and backs Burt Schmidt and Bernie Krueger of Illinois and Robert Graham of Pennsylvania.

## Northwestern Ties Ohio State For 2nd Honors In Regatta

Chicago, Nov. 26 — (AP) — Northwestern gained a tie with Ohio State today for second place in Northwestern's annual fall intercollegiate Dinghy Regatta sailed off Belmont harbor. The Wildcat crew won the only race contested.

Ten races were scheduled, but three-foot waves and icy winds forced postponement of the others.

Georgetown University registered 214 points to lead the event, with Northwestern and Ohio State trailing with 193.

Other point totals follow: Denison, 183; Dartmouth, 178; Notre Dame, 166; Illinois Tech, 165; Michigan, 161; Bowling Green, 158; Purdue, 142; Cincinnati, 24; Michigan State, 119; Wisconsin, 116 and Minnesota, 95.

James Rukin and Christian Lawren of Michigan were given a frigid bath when their 8-foot craft capsized.

## Georgia Tech Edges Neighbors In 7-6 Grid Mix

Atlanta, Ga., Nov. 26 — (AP) — Bobbed balls and passes caught by the wrong side held down the score today in a free flowing Georgia Tech Georgia offensive battle which Tech won 7-6 on the kicking toe of Red Patton.

Patton's placement gave Tech supremacy with 40,000 fans as witnesses, but the 10-yard bursts of Buster Humphrey and the five-yard punching of Bobby North put Tech to within one yard of Georgia's highly defensive goal line.

Tech's injured and braced up quarterback Jimmy Southward scored the touchdown after Coach Bobby Dodd finally consented for him to run a play or two in this his final college game.

This was the first one-point Tech Georgia game since 1933 when Georgia won 7-6, and makes this Georgia's worst season since 1939. Georgia has lost six games.

Fumbles and pass interceptions weren't alarmingly frequent — they just came at bad times.

## Razorbacks Whip Tulsa U. 40-7

Fayetteville, Ark., Nov. 26 — (AP) — Settling down after a shaky start, the Arkansas Razorbacks wore down a smaller University of Tulsa eleven today, 40 to 7.

A crowd of 12,000—the smallest to see Arkansas play in several years—saw the underdog Hurricane score first, cling to a 7-7 halftime deadlock and then will under a five-touchdown onslaught by the Southwestern conference team in the last two periods.

Tulsa was in the game only as long as its aerial attack clicked, and League, was an outstanding combat pilot in the RCAP during the war.

## Boston College Blasts Holy Cross Eleven 76 To 0

Boston, Nov. 26 — (AP) — Shifty Ed Petela, a late season discovery, and reliable Al Camava, romped for four touchdowns apiece today as Boston college slaughtered Holy Cross 76-0 today.

A frost-bitten crowd of 38,751 in Braves Field saw the B. C. Eagles more than make up for the 55-12 trouncing Holy Cross handed them back in 1942.

In addition to his four touchdowns, Petela made good on 10 of 11 extra point tries for a total of 34 points.

It was a said finish for the most futile team in Holy Cross' 53-year-old gridiron history.

Never before have the Crusaders been beaten nine out of 10 times. And never before have they suffered such humiliation.

## North Carolina Edges Virginia 14-7, Get Bowl Bid

Chapel Hill, N.C., Nov. 26 — (AP) — North Carolina defeated Virginia 14 to 7 today and won a trip to the Cotton Bowl.

Jake Wade, director of sports public relations for North Carolina, announced immediately after the victory that the Tar Heels would accept the invitation to the Jan. 2 classic at Dallas.

Virginia, which would have received the Cotton Bowl bid if she had won today threatened to tie the score in the final minutes of the game, but the threat failed on the North Carolina seven.

All-America Charlie Justice passed for one touchdown and carried over the other to lead the Tar Heels to victory.

North Carolina's opponent in the Cotton Bowl contest will be Rice, which defeated Baylor this afternoon, 41-7, for the Southwest conference championship.

## South Carolina Clips Wake Forest In Wild Contest

Columbia, S.C., Nov. 26 — (AP) — Quarterbacks Ed Pasky and Bo Hagan led South Carolina to a wild 27-0 southern conference football victory here today against Wake Forest.

Pasky intercepted a pass a yard behind his goal line and ran it back all the way to provide the margin of victory. Hagan steered a smart gamecock offense that accounted for the three other touchdowns.

## TEXAS TECH BEATS HARDIN-SIMMONS 23-13

Lubbock, Texas, Nov. 26 — (AP) — Texas Tech's Red Raiders won their eighth border conference football crown—their third in succession—by crushing the Hardin-Simmons Cowboys, 23 to 13 here today before 15,500 fans.

Immediately after the game, the Red Raider squad turned down acceptance of a Sun Bowl bid for 1950, then won it in the final quarter by gambling on a fourth down with nine yards to go.

Numerous roughing penalties and three player expulsions stirred the always heated rivalry between the neighboring schools. Mass fist fights day, 25 to 0.

The triumph was partial vindication for a team that has won only four games this season. It was Mississippi State's eighth defeat.

## Notre Dame Romps Over Southern Cal

South Bend, Ind., Nov. 26 — (AP) — Notre Dame, enroute to its greatest football season in history, romped through its 37th game without defeat Saturday by flattening Southern California 32-0.

On a frozen gridiron swept by wintry blasts that kept most of the capacity crowd of 57,214 under blankets, Coach Frank Leahy's Irish triphammered two first quarter touchdowns in 90 seconds. Then, unmercifully, the unstoppable Irish punched points in each of the following periods to compile the biggest edge over the Trojans in 21 meetings.

Notre Dame's ninth consecutive win of the season developed into a "test tube" victory with Leahy's experimenting on new plays that brought smiles to the famed Four Horsemen, celebrating their 25th reunion.

Members of the late Knute Rocke's unbeaten 1924 outfit saw Leahy use his great 250 pound end, Leon Hart, as a bulldozing fullback at times, employ end Bill Wightkin on flank runs and dispatch passer Bob Williams on several ball carrying trips. Capping the shenanigans was insertion of a flick of second and third stringers midway in the last half and eventually shoofing all available seniors off the bench in the fading minutes.

It was the last home appearance of 20 seniors and Leahy was highly elated he could accommodate every one of them.

The Trojans, losing their 13th decision in the Notre Dame series, proved a pesky aerial gang.

Their record breaking Pacific Coast conference passer Jim Fowles who played brilliantly despite a painful hip injury, and Dean Schneider, his unsung understudy, sent a quiver full of 36 arrows against the Irish. Sixteen found the target for 146 yards.

Bob Williams tried 23 passes for the Irish but hit only seven.

But the Irish running game percolated despite the unsteady footing, grinding out 316 yards.

The Trojans, completely bewildered on the ground—mainly by Hart who was a demon on defense as well as offense—picked up a mere 17 yards by rushing.

The Trojans reached the Irish 13 yard line after recovering Larry Coutre's fumble at the outset of the game. Then Hart rocked Schneider with a tackle and he lost the ball. It was the closest Southern Cal came to a touchdown.

Only the Trojans' aerial barrage kept them hopeful. Schneider completed 10 out of 20 for 73 yards and powers struck six out of 16 for 75.

## Tennessee Comes From Behind To Nip Vanderbilt

Knoxville, Tenn., Nov. 26 — (AP) — An alert Tennessee football team took advantage of the breaks to come from behind and beat Vanderbilt, 26 to 20, today in a wild scoring battle.

The bitterly-fought game almost got out of hand and ended in a virtual free-for-all deep in Vanderbilt territory. Both players and coaches from the Vandy bench charged the officials at the final gun.

The keyed-up Commodores clearly outfought Tennessee and ground out 262 yards rushing to Tennessee's 51, but fumbles, intercepted passes and penalties cost them dearly.

## Fourth Quarter Touchdown Gives Auburn 20-20 Tie

Mobile, Ala., Nov. 26 — (AP) — Auburn's brilliant Travis Tidwell scored a fourth quarter touchdown to gain his hard-pressed team a 20-20 tie with underdog Clemson today.

Rated a slight favorite over the Southern conference eleven, the Tigers of Auburn had to battle 60 yards in the last few minutes of play for the tying touchdown.

With the score all-even, quarterback Bill Tucker's try for extra point went wide of the uprights.

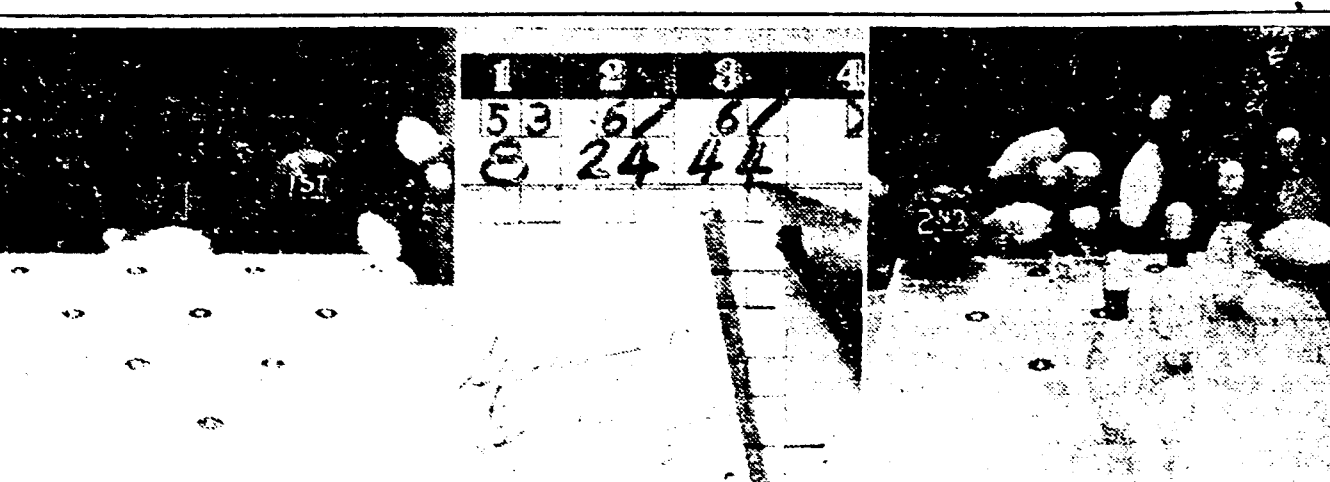

## KNOXVILLE VOLTS WIN PIGGY BANK BOWL TILT

## Afghan Nomads Move Again

Kabul, Afghanistan.—One of the world's few remaining nomadic movements is taking place in Afghanistan, where long camel caravans are leaving the cold grasslands of central Asia for the warm plains of Pakistan. The migrants are the Kuchis, who travel thousands of miles each year accompanied by ill-tempered bactrian camels and patient donkeys.

At the head of each caravan strides the patriarch, with lengthy beard, loose turban, and flowing robes. Only a modern rifle shows the influence of a newer world. At his back follow camels, fastened nose to tail and piled high with goods, chickens, and children. In the rear come the women, hawk-faced, with flashing eyes and ready tongues. Around the caravan, the youngsters play, accompanied by ferocious crooked dogs.

At night, the caravans cluster in tiny camps under the peaks of the Hindu Kush. Black felt tents arise. The smoke of camel thorn fires mingles with the smell of roasting mutton. From the nearby highway may come the hum of a passing car but to the Kuchis life goes on in its placid and ancient way.

## The CAMEO

By Virginia Teale

**THE STORY:** A valuable cameo has been mixed up in the murders of Martin Falter, blacksmith and artist, and Nell O'Neill, wife of Tom O'Neill, a pottery maker. The cameo now is in the possession of Stephanie Serenov, recently revealed as Nell's niece. Numbers in the box containing the cameo seem to be a clue in the mystery. Stephanie has found out how to open the lock of the cameo, in which are the pictures of her dead parents, Arnold Pfeiffer, another suspect in the case, had been commissioned earlier by Falter to sell the cameo.

Not that he gave a tinker's dam about Hagar, he told himself. Not that old witch! But it was the principle of the thing. He could go down to the police station—

He chewed off a sliver of finger-nail as a dreadful thought struck his brain: What would happen if certain people should suspect he had put two and two together?

He peeled off his smock and threw it on the floor. He shrugged on a jacket and started for the hall, only to be stopped in his tracks by the clacking of the knocker on his front door.

He stood motionless for a few minutes, his eyes darting from side to side as he considered how to escape. The knocker sounded again, violently this time.

Arnold snatched up his sandals and dashed to the window that overlooked the back yard. He opened it carefully, fearful of every small squeak. Throwing his sandals out first, he climbed over the sill and took the short jump to the ground.

Mesmerized by their private

disturbing thoughts, neither Arnold Pfeiffer nor Andrey Yakov noticed each other when their routes crossed briefly on Magnolia street. And neither noticed a third man whom they both knew—a stockily built man distinguished by a totally bald head and a half-empty coat sleeve that was pinned up neatly below the left elbow.

The bald man glanced curiously at each of them for a few seconds from the opposite side of the street, then turned and walked back briskly in the direction from which he had come.

**YAKOV** turned into the drive beside Hagar Blair's gray-shingled house. With luck, he thought, he could conclude his mission tonight. He glanced at the lighted windows: Perhaps within the next hour!

Stephanie answered his ring promptly, her smile fading as she recognized him.

Yakov's chuckle sounded sympathetic: "You were expecting someone else? I am so sorry."

Stephanie stared at him in silence, watching him tilt his head and blow smoke toward the ceiling.

"As for your name," he paused and smiled triumphantly, "it was a guess. I am only surprised that poor Nellya did not guess that you were her sister's child. If you will pardon the unkindness—she

was a thoroughly stupid woman." He leaned forward to search her face: "You are a Russian, my dear Miss Serenov."

Stephanie had jumped up and now stood before him, her eyes like blue flame: "I am an American citizen!"

Yakov nodded patiently: "I, too, can lay legal claim to that designation. However, the mother country sometimes finds it advisable to reclaim her children. Things have developed which make it impossible for me to resist her gathering arms."

HE took note of Stephanie's recoil. "Do not trouble yourself over this. Russia is no longer interested in the Serenovs, except for one small matter. I have come here to negotiate with you, to the benefit of both of us, and Miss Blair. I have certain papers, letters, which will prove that Miss Blair had nothing to do with the murders of Martin Falter and

Nellya. I am prepared to give you these letters in exchange for the cameo. Not permanently. I ask it for only a few hours, and promise to return it to you in perfect condition."

She shook her head slowly. "I can't let you have my lock." "Locket? You have opened it then? You know what is inside?" "I've always known what is inside. My mother's picture and my father's. I'd not give it to you for even a few hours."

Yakov sank back. "Pictures? That is all, you are sure. No writing of any kind?" "Writing? What kind of writing?" "An engraving, or perhaps a bit of paper with writing?"

The girl shook her head. "Yakov fingered his mustache thoughtfully. "You must be mistaken," he said slowly. "There must be something. Will you allow me to examine the locket?"

"No." "Not even to get Miss Blair out of jail?" "Would you give me the letters you say you have if I let you look at the cameo here?" "Yes." He met her glance squarely.

Mrs. A. E. Hudson, church organist, played "I Love You Truly," "O Promise Me," "I Love Thee," the Lohengrin wedding march, and for the recessional "Midsummer Night's Dream."

About 150 guests attended the candlelight ceremony, the church being beautifully decorated with palms, ferns and candelabra.

**Earned \$150 Annually**  
When the fund was established the \$2500 earned six percent interest which brought a return of \$150 annually which was used to purchase Christmas gifts for needy children in the grade schools.

When interest rates dropped, the original fund did not bring in a large enough return to provide gifts for approximately 300 children. Four years ago the Journal Courier launched a plan to raise the fund to \$10,000, which would bring a sufficient return to provide for the needy children for many years to come.

Last year Jacksonville and Morgan county residents contributed a total of \$590 to the fund.

**Walter White, Negro Leader, To Talk Here**

Walter White, executive secretary of the National Association for the Advancement of Colored People and one of the best known advocates of equality for the Negro, will lecture here Wednesday night.

Fair-skinned, blond and blue-eyed, this militant crusader in behalf of his people has been active in the NAACP in an official capacity since 1918. He was born in Atlanta, Ga., and was educated at Atlanta University. He did postgraduate work in economics and sociology at the College of the City of New York.

His books, articles and columns in leading newspapers and magazines, plus his political and legislative activities, have made him an outstanding leader of his race. During the war he visited all theatres of operations as a war correspondent. He writes a weekly column which is syndicated in several newspapers.

During the past summer Mr. White made a round the world tour with Town Meeting of the Air. At the present time forces within the NAACP are attempting to force his resignation as executive secretary, due to the "unfavorable publicity" occasioned by his marriage to a white Easterner and the publication of an article in Look magazine which dealt with the possible elimination of the race problem through skin bleaching.

His topic will be "Lincoln's Unfinished Business." He will speak at 8:15 p.m. in Music Hall, MacMurray College.

**Hilltop Players To Give Comedy Friday Night**

The Hilltop Players of Illinois College will present their first performance of the school year Friday, Dec. 2, Rachel Crothers' comedy, "A Frenchman's Boy," which will feature several Jacksonville young people.

The play will be given at 8:30 p.m. at the Jacksonville high school auditorium and no seats will be reserved.

Although Bill DePretes graduated from Illinois College last year, he is returning to assist the Hilltop Players in this production. In the past years he has entertained the people of Jacksonville in his performances as Sir Toby Belch in "Twelfth Night," as Iago in "Othello," as Bottom in "A Midsummer Night's Dream" and

as Charles Lamb in "Charles and Mary." This versatile actor plays the part of Hippolytus Lomi, a Frenchman who is suave and very romantic.

Bob Carpenter and Mary Elledge, both of Jacksonville are making their first appearance with the Hilltop Players. However, they have appeared in high school productions. Mr. Carpenter is Ronald Derbyshire, a young, dashing Englishman who falls in love with the wrong woman. Miss Elledge is Peggy Eyles, a young girl who is hopelessly in love with tall, gangling Jake Carson. The part of Jake is played by Don Polzin, a veteran Hilltop performer.

Returning to the footlights as romantic leads are Edward Cox of Jacksonville and Donna Postlewaite of Champaign. These two recently appeared as lovers in the Hilltop presentation of "A Midsummer Night's Dream."

Another veteran actress, Florence Majewski, supplies the remaining love interest. Miss Majewski, a sophomore at Illinois College this year, appeared in every college play last year.

Other members of the cast are appearing for the first time before a Jacksonville audience. They are Dean Hocking, Bill Mills, Betty Ross, and Joan Keiser. Charles Bonjean, a freshman at Jacksonville high school, is also appearing with the Hilltop Players.

Tickets may be purchased at Lane's Book store or at the door.

## Wives Of Doctors Invited To Tea At Our Saviour's

At the invitation of Sister Claudine, administrator of the women who husbands are on the medical staff of Our Saviour's Hospital will be guests of the Sisters of the Holy Cross at a meeting to take place in the nurses' home at 3 p.m. Tuesday afternoon, Nov. 29.

The purpose of the meeting is to consider the possibilities of the formation of a medical auxiliary whose major objective, tentatively, would be the interpretation of the hospital to the public.

The meeting, which is the first of its kind in the history of Our Saviour's, will be devoted, in part, to a presentation of the policies and the problems of the hospital.

Following the meeting the guests will have tea served in the lounge by the pre-clinical class under the direction of Miss Louise Hagel, instructor. Mrs. Carol King, hospital nutritionist, will be co-hostess.

Guests will visit the new nursery on the third floor of the hospital, and they will tour other parts of the building which are of special interest.

It is expected that guests will be coming from Pittsfield, Bluffs, Winchester, Arden, Virginia, Ashland, Roodhouse, White Hall, Beardstown, Franklin, Waverly, Meredosia, and Murrayville as well as from Jacksonville.

**One Eye In Family Of Three Is Going To Be Saved, Maybe**

Portland, Ore., Nov. 26.—(P)—The Lee Hodgsons learned with joy today that the one eye remaining in their family of three is apparently going to be saved.

Physicians reported that the ailment which was threatening to blind 12-year-old Mary Hope Hodgdon seems to have been halted.

"It's certainly wonderful," said her blind parents, Mr. and Mrs. Lee Hodgdon. "We can hardly wait to get her home."

Physicians at the Elks eye clinic of the University of Oregon Medical School found that the operation made 10 days ago is welding down the retina of the eye, saving Mary Hope's threatened vision.

The retina, which records images, had been breaking away. That cost Mary Hope the sight of one eye some time ago. It was starting to destroy the sight of the other, when the operation was performed.

The 12-year-old girl, who all her life has been the eyes for her blind parents, will remain in the hospital about a week longer. The healing isn't quite complete.

**G. I. Home Loan Applications Rise In October**

Washington, Nov. 26.—(P)—The G. I. Home-Loan Market is the best it has been in two years—and it's due to become even better, the Veterans Administration said today.

During October, almost 40,000 applications for G. I. home loan guarantees were received from lenders, Frank W. Kelsey, VA assistant administrator for finance, said in a statement.

This represents the highest number for any month since November, 1947, Kelsey said.

Applications have been rising steadily since last April, when a long downward trend was reversed.

T. B. King, director of VA's loan guaranty service, said the upturn was the result of a combination of factors.

He said they include:

1. An increased willingness on the part of the private investors to finance mortgage loans at 4 per cent interest—the maximum rate chargeable on G. I. home loans.

2. Greater availability of lower-priced homes.

3. The large amount of mortgage money supplied through the Federal National Mortgage Association.

government corporation authorized to buy G. I. loans from private lenders.

**MODEL T FORD FIGURES IN WRECK**

Juliet, Ill., Nov. 26.—(P)—Ninety-three-year-old William Wiss was souped-up 1927 Model T Ford today when . . . bang!

His car and a jaunty 1937 model driven by George Swedder, a mere 71 years old, had collided. The Model T overturned.

Patrolman William Daggett, 23, sought to put the ancient hot rod in neutral before righting it. He hunted for several minutes, until his elders told him there isn't any gearshift in the Model T, just foot pedals.

Traffic Sergeant Orville Belfield said Wiss, a watchman for a construction company, had souped up his car by a special coil which gave an extremely hot ignition spark.

## Angus Steers Winners At Show; Morgan Calf 3rd Best Jr. Yearling

Chicago, Nov. 26.—(AP)—A gray haired Canadian woman, and three 15 year old American kids—a pretty blue eyed blonde girl and two red-cheeked boys—won top honors today in opening contests of the International Livestock Exposition.

Mrs. Amy Grace Kelsey, 57, of Erickson, B.C., was named wheat queen of the world at the grain show of the exposition. She is the only woman who has ever won the coveted grain prize and is a two-time winner. She took the top honor in the 1946 show.

Bonnie Lu Logan, of Van Wert, Ohio, showed the junior grand champion steer in the junior livestock feeding division. The pretty high school girl and 4-H member was awarded an engraved silver bowl and a purple ribbon. She exhibited a 1250 pound Aberdeen Angus named Lin-Lou.

An Angus heifer raised and shown by Darrell Smith of Alexander won third place in the junior yearling class Saturday. It was the first time that Smith, Franklin high school student, had competed in the big show.

Betty Hartter, 11, of Carlock, Ill., even the judges' nod for reserve grand champion in the junior feeding contest. She also showed a sleek black Angus.

Both of the young girls were western hats and gay, embroidered cowboy shirts. They placed their animals before Judge A. D. Weber of Kansas State college at Manhattan.
